

ABDULLAH SAIF

FULL-STACK / MERN SOFTWARE ENGINEER

Abdullah Saif | Lahore, Pakistan | +92 315 4389728 | abdullahsaif001@gmail.com

[LinkedIn](#) | [GitHub](#)

PROFILE

Full-Stack Software Engineer with professional experience building production web applications, AI-powered features, APIs, automation systems, and commercial browser products. Strongest across React, Node.js, JavaScript, Python, REST APIs, MongoDB, PostgreSQL, and AI integrations, with end-to-end product ownership.

CORE SKILLS

JavaScript • React.js • Node.js • Express.js • Next.js • Python • Flask • REST APIs • MongoDB • PostgreSQL • MySQL • JWT • WebSockets • Git • AWS • Postman • OpenAI API • Gemini • Claude • n8n

EXPERIENCE

Software Engineer, AI Products Development | Downlabs | Jan 2024 – Aug 2026

- Develop production software including SiteDNA, an automated security and web-intelligence platform.
- Design and integrate APIs and multi-AI services for remediation, reporting, and content pipelines.
- Own product decisions from architecture and API design through deployment and client-facing reporting.

Associate Software Engineer | Artificial Automation Business Solutions | Nov 2025 – Jul 2026

- Develop and maintain production web application features using React and Python.
- Build AI-powered workflow features using Python and LLM APIs.
- Work with Git, sprint planning, and peer code reviews in a small engineering team.

AI Intern | Superior University | 2025 (through Dec 2025)

- Built and deployed a Python/NLP chatbot from scratch, including data collection and model training.

SELECTED FULL-STACK PROJECTS

Sync0.dev — Autonomous AI Productivity Platform — MERN • React • Node.js • WebSockets • JWT • MCP

- Built a production agentic platform connecting 150+ tools through MCP and orchestrating multi-step tasks from natural-language goals.
- Implemented task prioritization, deadline prediction, workflow triggers, real-time WebSocket coordination, RBAC, and JWT authentication.
- Built solo end-to-end.

SHOPMATE — E-Commerce Store Management System — React.js • Node.js • Express.js • MongoDB

- Built a multi-vendor e-commerce platform with authentication, admin panel, analytics dashboard, and full CRUD operations.

SmileCraft Dental Clinic — React.js • Node.js • MongoDB • Bootstrap

- Built a full-stack clinic management system covering patient, appointment, and doctor management with authentication and CRUD operations.

AlphaSoft — Business Management Platform — MERN • REST APIs

- Built a business operations platform with CRUD, authentication, role-based management, and reporting dashboard.

LeadsIn — JavaScript • Chrome Extension APIs • OpenAI API • Google Maps

- Built and sold a commercial Chrome extension for AI-assisted lead research and personalized cold outreach.
- Implemented queued sending, follow-up sequences, IMAP reply tracking, and deliverability monitoring.

SiteDNA — Next.js • Multi-AI • REST API

- Built a security and web-intelligence platform with 15+ parallel scan engines and bulk scanning of 1,000+ domains.
- Includes white-labeled PDF reporting and REST API integration for CI/CD.

ADDITIONAL TECHNICAL WORK

n8n production automations: RAG report generation, content engines, lead generation, Text-to-SQL, Google Workspace/API integrations, and operational reporting.

EDUCATION & CERTIFICATIONS

B.S. Artificial Intelligence — Superior University, Lahore | 2024 – Present | GPA: 3.3 / 4.0

Microsoft Azure AI Fundamentals — Nov 2025

Prompt Engineering for Developers — Vanderbilt University
